

What the Phở??

Phở is the most famous Vietnamese dish. It has all the qualities of a natural, nutritious & a well balanced meal. The basis of a great **Phở** lies in the time honoured method of cooking & the delicate flavouring of the broth. By sampling the first soup spoon together with noodles & other ingredients, a complete bowl of **Phở** should leave you feeling fresh, rejuvenated & totally satisfied.

One of the most enjoyable aspects of eating **Phở** is the DIY act of sampling & enhancing your food as you eat, as is, or by garnishing it with fresh bean sprouts, basil or chilli & lime. The optional hoi-sin & chilli sauces can either be added in or as a dip thus eventually creating your own distinctive taste & unique **Phở** identity.

At **Simply Phở**, we also specialise in a number of street foods such as the mouth watering open flame grilled chicken or pork chop on rice. Alternatively for the ultimate freshness, light & taste we recommend these varieties as well as spring rolls served over vermicelli noodles & fresh greens. Which ever you chose, the simple menu assures that you are served with quality health conscious meals that delivers great taste & leave you feeling *photastic*.
